

Airing of Grievances

Benefits of Airing of Grievances

People normally complain when their dissatisfaction reaches some sort of critical threshold. Telling others of your complaints is seen as a possible means to reduce the problem, and it can serve as a cathartic method to cleanse people of the evils of dissatisfaction.

You may become encouraged to complain in the Airing of Grievances, essentially ferreting out your bad feelings in an orgasm of griping.

One's assertion is that you should air grievances with your family. After all, who is more worthy of your gripes than those you are closest to!

However, when we refer to airing a grievance, it is referring to addressing the government and are in no way responsible for what may happen when airing a grievance to your family.
